SCOTT'S LITTLE GIANT CORN AND COB MILL.

THERE are features connected with this Mill worthy of consideration and close examination on the part of those wishing to purchase a Feed Mill.

Its mechanical construction and adaptation to the purposes designed, to crush and grind ear corn. Its great capacity, while doing an immense work with extraordinary case, its durability is amply provided for. The complete and entire portableness of the Little Giant, rendering its greater convenience for plantation and farm use impossible. It requires no mechanical aid or bill of expense to put it up; any farm hand or servant can put up and set one put it ap; any farm hand or servant can put up and set one running in haif an hours time. The convenience with which the sweep may be applied to run horizontal—as is most usual—or over head, and the mill may be easily attached where steam or water is used. The power it takes, tached where steam or water is used. The power is mace, tached where steam or water is used. The quantity and quality requiring one and two horses. The quantity and quality of product, 18 to 50 hushels of good feed meal per hour, according to the degree of fineness ground, and the size according to the degree of fineness ground, and the size of the cheapest mill, all thirgs considered, there Darling, Rev. G. L. Platt, Rev. J. Gordon Maxwell, Philadelphia, and the size of the cheapest mill, all thirgs considered, there

mill. It is the cheapest mill, all thirds considered, there is before the public.

Another thing connected with the Little Giant, as a patanother thing connected with the buile Giant, as a pat-ent, and worthy of note, is the fact that there has been no Patent Right speculating or huckstering, shout the coun-try, as is usual with the thousand bungling make shift im-plements that are got up as a trade—merely to get money by selling or palming off the patent right upon the credu-lous—then the machine to be abandoned by all parties as a humbug; on the other hand the Patentee and Proprietors of the table Giant Mills, believing that they can said deof the Little Giant Mills, believing that they can—and de-termined that they will supply the Agriculturalists and Stock raisers of our country with a superior Mill, are per manently engaged in the business, and have over one hun-dred thousand dollars invested in the manufacture of these mills, in the East, West and South, some of these establish ments employing 60 men solely in this business. So high ly are those mills appreciated, that four thousand have beet sold within the past eighteen months, and the heaviest and the most extensive Manufacturers of Agricultural implements in the United States have eagerly sought an inter-

est in their manufacture and sale.

No implement has been more thoroughly tested; no one of the kind has received so numerous and high testimonials from Mechanics' Institutes and Agricultural Associations, and none by reason of substantial, practical utility and merit have more fairly ground their way into every day use and popular favor than Scott's Little Grant Corn and Cob Mill. COMPOUND FLUID EXTRACT BUCHU or diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all diseases of the Sexual Organs, whether in Male or Female, from whatever ca they may have originated, and no matter of how long F you have contracted the terrible disease which, when

I once scated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods, too well calculated to deceive the young, and those not acnainted with their tricks. You cannot be too careful in The Fluid Extract Buchu has been pronounced by emient physicians the greatest remedy ever known. It is a redicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and posseness virus of this dreadful discuso; and, unlike other remedies, does not dry up the idease in the blood.

Constitutional Debility, brought on by self-abuse, a most

terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant bopes of parents, and blighting in the bud the glorious a notion of many a noble youth, can be cured by this Infallible Remedy. And as a medicine which must benet everybody, from the simply delicate to the confined and quiring invalid, no equal is to be found acting both as a Cure and prevenuve.
HELMBOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT SARSAPARILLA, or Parifying the Blood, removing all diseases arising from excess of Mercury, exposure and unprudence is

his chronic constitutional disease, arising from an impore state of the Blood, and the only reliable and effect tual known remedy for the cure of Sciolula, Salt libeum, Scald head, Ulcerations of the Thront and Legs, Pains and Swellings of the Bones, Tetter, Pumples on the Face, and all Scally fruptions of the Skins.
PHIS article is now proscribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sursaparila vet offered to the public. Several cases of secondary hyphitm, Mercurial and Serofulous dicases have entirely recovered in the incurable wards of our Pubhe Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the saintary effects of this medicine in arresting some of the most involvente diseases, after the glands were destroyed, and the bones already affected. Nortes.—Letters from responsible Physicians and Pro-fessors of several Medical Colleges, and certificates of cures

rom patients will be found accompanying both Prepara-Prices, Fluid Extract of Bucho, \$1 per bottle or 6 do for \$5 " of Sarsaparilla, " " equal in strength to one gullon of Syrup of Sarsaparilla Prepared and sold by H.
